Project Title: Assesment Tracker

Overview / Description: This project allows students to check their assessments and the schedule for those. Teachers are allowed to directly edit this. They can remove and add assessments, assign the schedule, and put the total score. Update status if accomplished upcoming and also if recorded or graded. Those things generally show up on the screen for the class generally. However the teacher can also edit details that are only shown to one student. Special notes are added if one missed a requirement, if unexcused or excused, and if they are given a chance to have a special exam due to their absence. Another, is the personal grade of a student.

Features:
-Enter class/section:
-Enter role (student or teacher):
